Providing Solutions For Your Rating Information Needs

December 16, 2007

TO ALL MEMBERS:

Subject: Bylaw Amendments and Elimination of Antitrust Immunity on January 1, 2008

In response to the pending expiration of antitrust immunity on January 1, 2008, the Board of Directors adopted a number of bylaw amendments at its December meeting. The purpose of these amendments is to eliminate any reference to collective ratemaking in our bylaws since there will be no antitrust immunity for these activities after January 1, 2008.

As a result, there will be no further collectively established adjustments to Middlewest rates. In the future, carriers will need to contact us individually if they wish to make adjustments to any collective rates we have provided, just as they do now with their independent rate levels.

With the exception of this procedural change, our services will be provided much as they are now. In particular, we will continue to offer our software and rate data services to all segments of the transportation industry including carriers, shippers, logistics providers, etc.

If you have questions or would like to discuss your individual pricing needs, you may contact David Roebuck at 800-545-7091 ext. 244.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jeff Michalson', written in a cursive style.
